

Bucharest 8./9.5.21

As of today, 30 combustion engine cars are competing against 6 electric cars in the slalom competition. The registration deadline is not over yet, we hope for more EV enthusiasts who would like to take part in the first slalom race in ecoGP history for just € 100 entry fee. This time one electric car is driving outside the rating, an electrified Porsche. The eco GP organization is considering whether 100% electrified cars / trucks should also start in their own classes in road races in 2022. It would have the charm to show what is possible.

Here you can vote how you think about it: [Telegram](#)

Navarra!

August is the month when Spaniards are more likely to lie on the beach than to come to any racetrack. So it will be exciting whether this race can take place. 4 teams are registered, 40 teams are required to cover the costs, with 20 teams eco GP would take the financial risk. So if you think you want to combine a holiday in Spain with Bilbao and the racetrack, then please register without obligation.

Schauinsland

The third edition of the challenge on the traditional race track. Last year we were allowed to drive despite Corona because the hygiene concept and the open-air event fitted to the requirements of the authorities. We are firmly expecting to perform it again this year. The only question is with or without an audience on site. Registration fees until 8/15/21

Private teams: € 500 plus € 20 per driver

Company teams: € 1,300 plus € 20 per driver, all prices plus 19% VAT.

Hotel reservations: As in previous years: Green City Hotel Vauban and Hotel-Restaurant Bierhäuserle

Booking Code "ecoGP 2021"

IONICA

This time, IONICA has been pushed into October. We hope for a golden October with snow on the Großglockner. Summer and winter in one challenge, we've never had that before! Take part and enjoy the time in beautiful Zell am See!

The current record is 62 laps set by a Renault ZOE and a Model 3!

Nürburgring save 200€!

The date is this far that by then everyone will probably be vaccinated and Corona will be history. On November 6th and 7th for the first time in the history of the Nürburgring, an electric car racing series enters the asphalt that so many racing heroes have driven on, heralding the new era of racing. We expect a very high number of visitors. Stars and starlets have expressed an interest in stopping by. Be curious.

Whoever before 3.5. register saves 200 €, register today!

Registration fees from May 3rd, 21

Private teams: € 700 plus 19% VAT, plus € 25 per driver

Association and company teams: € 1,700, plus 19% VAT, plus € 25 per driver..

Hotel reservations: Nürburgring Motorsport Hotel managed by LINDNER:

until August 6th, 2021: 100% of the availability contingent: 72 rooms

from 06.08. until September 24th, 2021: 50% of the availability contingent: 36 rooms

from 24.09.2021: no reservation guarantee

Booking Code "ecoGP 2021"

Corona

Regulation in the event of force majeure in connection with Corona:

If an event is canceled: 100% refund.

Team cancellations: up to 3 months before the event: 100% refund. Up to 1 month before the event: 75% refund, thereafter no refund.

ECO GRAND PRIX SHOP

Don't forget to pre-order your products using the "Pick Up" function. So you can pick up the fan articles or electric car cables on site 100% emission-free and without any shipping costs. Above all, we don't have much reserve of the sailed coffee on board, so it's worth ordering in advance. Feel free to ask a team if they would like to bring something for you or play the eco courier for your friends and acquaintances.

SHOP ACCESS

Example: The following spiral charging cables for up to 22kW / h are available in the shop - including bags.

WE THANK OUR LOYAL SPONSORS

THE EPIC EVENT IN 2023

80edays Stop Ladepark Hilden

A stop at the third edition of the world tour has already been decided. Roland Schüren agreed with 80edays to receive all teams at Seed & Greet. We can already look forward to hearing the stories of the teams there who have already driven more than 30,000 km through half the world upon arrival in Hilden. The world record of 2016 in 80 days electric around the world will not be broken, but another world record will be set that will once again prove the long-distance suitability of electric cars. The project is officially registered as a world record run and will break a few old records set by combustion engines. Would you also like to be a charge event or sleep stop? Join the unforgettable series of the third and probably last circumnavigation of the world by Rafael de Mestre and be part of the film in cinema format! Apply here!
