

## ecoGP 2023 series

### Celebrating 10 years of sustainable racing

#### Anniversary races confirmed for France, Romania and Germany

All races for the 2023 series have been confirmed featuring races in France, Romania and Germany. Races are limited to 40 teams per race. Registration for the whole series until the end of April grants you a starting slot.

#### ELECTRIC REBIRTH 2023 - CIRCUIT DES PLATANES

##### PERPIGNAN – 8 HOURS ENDURANCE RACE

28 - 29 May 2023

The first race of the 2023 series will take place in France, on the historical track of Roussillon, in the frame of an emobility weekend at a closed city circuit. The event is supported by the Automobile Club du Roussillon and the City of Perpignan. It will be held during the Pentecost holidays, the beach is nearby so you can extend the weekend relaxing in the sun.

The track length is of 2540m, the race duration is of 8 hours, one or more drivers per team are allowed. The registration fee for this race is of Euro 350 per team, which includes two driver insurances.

The start of the ecoGP season at the Circuit des Platanes is set to take place on May 28th and 29th, 2023. The festival starts on May 27th. You are welcome to join.

With a charging limit of 11 kW or 22 kW (yet to be confirmed), teams will need to carefully manage their resources to stay ahead in the competition. Fans will be entertained during an unforgettable event that combines endurance with the latest in e-mobility technology.

Registration starts on March 1st here: <https://ecograndprix.com/team-driver/>

#### TRANSILVANIA MOTOR RING

2-3 September 2023

The second race will be held in Romania, at the Transilvania Motor Ring, which meanwhile improved its electric infrastructure to allow more cars to charge in parallel. The event will include test drives offered by different car dealers.

The track length is of 3700m, the race duration is of 24 hours, at least three drivers per team (we recommend 4 or more) are needed. The registration fee for this race is of Euro 600 per team, which includes three driver insurances.

Registration starts on March 1st here: <https://ecograndprix.com/team-driver/>

#### CIRCUIT MEPPEN – 24H EV CHALLENGE

30 September – 1 October 2023

The final race of the series will be held in Germany, at Circuit Meppen. The pit lane has been extended to allow more cars to charge in parallel. The event will also include test drives offered by different car dealers. The track length is of 2150m and the race duration is of 24 hours, three drivers per team (we recommend 4 or more) are needed.

This event will be the most fun you ever experienced at an ecoGP. We will introduce how the speed series could look like and will try to beat the actual track record by an electric car. The basic registration fee for this race is of EUR 990 per team, which includes three driver insurances.

Registration starts on March 1st here: <https://ecograndprix.com/team-driver/>

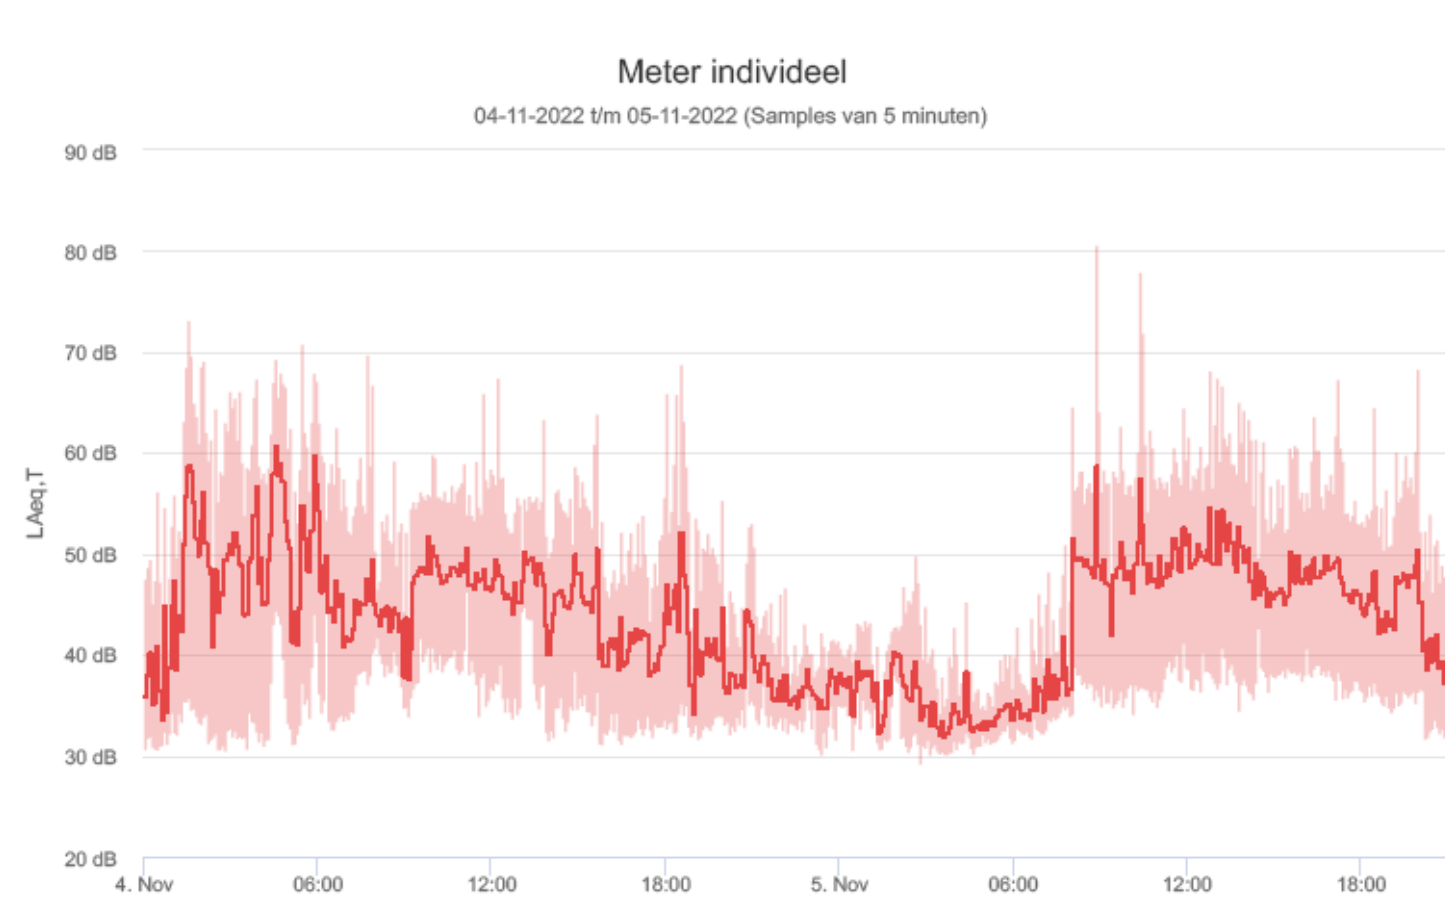

#### ECOGP SOUND LEVEL - LIKE A HUMAN CONVERSATION OR HOW WE DEAL WITH QUIET HOURS IN GERMANY

In 2022 we had a pilot 24 hours race divided into two days (12h per day) because driving in the night was not allowed by the authorities of the region. So, with the help of the Circuit Meppen, we measured the level of noise we made during the race in order to later apply for a 24 hours permit driving through the night.

According to the Circuit's measurements, a level between 30 and 60 dB was recorded. 30 dB is equal to a soft whisper and 60dB is the sound when two people are talking (find [here](#) more info about noise levels).

So, we applied and we're waiting for the authorities' permit to allow us to organize the race during the night. We will keep you informed.

#### SAVE MONEY AND JOIN ALL THREE RACES FOR A SPECIAL PRICE

Registration fee for the whole 2023 series is of EUR 1750. This offer is available until the 30th of April, 2023. So, hurry and register your team before April ends to secure your team's starting slot. Registration closes one week before each event starts.

Don't miss out on the chance to be a part of this eco-friendly anniversary race series!

#### Need help? Contact us!

Being held annually since 2013 in several European countries, the Eco Grand Prix (ecoGP) promotes a sustainable and environmentally friendly lifestyle.

##### About ecoGP:

The first ecoGP series took place in Spain, in 2013 and it was initiated by Rafael de Mestre, the series' founder. Originally from Spain, but established in Romania, Rafael has traveled twice around the world with his own electric car and has been promoting the message that electric cars have a good range, and they are able to charge everywhere: "Wherever there is a light burning then you can charge your car!" – Rafael de Mestre.

Since then, a series of races have been held every year in different European countries. Participants can join each race separately or take part in the overall standings. We award the winners of the year according to the total points scored at the last race of the season.
